Subject: Request to review the proposed site of 1320 MW Coal based Thermal Power Project located at Dadari Khurd Village, District-Mirzapur.

Dear Sir,

I would like to inform you that a Thermal Power Project with capacity 1320 MW Coal based is going to be installed at nearby village-Dadari Khurd in District-Mirzapur which is 10 Km. away from Rajiv Gandhi South Campus of BHU at Barkachha. It is pointed out that the Rajiv Gandhi South Campus is constituent of BHU having running more than 20 Self-Financing undergraduate and postgraduate Courses and other academic activities. A good number of students, teaching and non-teaching staff and their family members are residing in the Campus.

In this connection, we have received a letter of General Secretary, a NGO- "Vindhya Environmental Society" and representation of resident of that area. Further, we have also examined by our Faculty Member who belongs to field of Environmental Science & Technology and he has submitted an Environment Impact Assessment Report of 1320 MW about proposed Coal based Thermal Power Project, which are self explanatory (Copy enclosed).

It is needless to mention here that the negative impact of this project may adversely affect their health of students, teachers and other staff residing in the Rajiv Gandhi South Campus. We would like to highlight the fact that entire drinking water supply of the RGSC is from lower Khajuri Dam which is fed by upper Khajuri Dam. Any industrial activity in the upper Khajuri Dam will jeopardize our water supply.

Keeping in view of the above fact, I request you to kindly consider for reviewing the shifting of place much ahead from the premises of Rajiv Gandhi South Campus, Barkachha so that the ambience and environment of this area may keep intact.

Looking forward for an earliest positive step from you in the matter.

Encl: as above

Yours faithfully,

Levyadav
